WORK EXPERIENCE

ETL & BUSINESS INTELLIGENCE DEVELOPER 2019 - Present

CWB National Leasing, Reporting and Treasury, Winnipeg, MB

- Developed front-end solutions with multiple UI controls and functionality scripts (**JavaScript**, **HTML**, **CSS**, **WebFOCUS** native scripts).
- Wrote **SQL** queries and stored procedures for multiple reports by implementing forefront data analytics techniques and best practices.
- Worked with a wide array of software development and project management tools to surpass efficiency benchmarks (**Jira**, **Confluence**, **Stash**, **Git**).
- Created Business Intelligence reporting and analytics dashboards that clearly summarized and represented accurate data to satisfy project requirements (**WebFOCUS**).
- Designed, developed and tested software to implement schema and data quality changes to the Enterprise **Data Warehouse/Data Marts**.

SENIOR MORTGAGE ANALYST

2017 - 2019

Investors Group, Mortgage Financial Services, Winnipeg, MB

- Developed **VBA** scripts, MS Excel macros and MS Access databases for new and existing financial and operational reports.
- Managed the development of mortgage databases and accessed information based on project requirements.

ASSOCIATE SOFTWARE DEVELOPER

2016 (8 months)

Investors Group, SAP Department, Winnipeg, MB

- Developed custom visualization extensions for SAP Lumira using native API which included scripting UI functionality (**JavaScript**) and building graphic elements with **D3.js** library, **HTML**, and **CSS**.
- Built and programmed dashboard functionality using **JavaScript** libraries (**SAP Design Studio**) and integrated dashboard with data sources (**IDE Eclipse**).
- Scripted loading data in the background to the accounting dashboard from the legacy data source that resided in **Oracle DB**, reducing the loading time to 2 minutes from 7 minutes.
